

The American Mold Builders Association
is pleased to announce an exciting
new discount program with
AMBA Partner, EROWA Technology!

**EROWA has partnered with AMBA to offer an
exclusive 5% discount program!**

EROWA is offering a 5% discount for for all new AMBA members for one year from date of membership. AMBA members will receive one-week advance notice on all special promos and sales. Discounts exclude automation, custom fixtures, software and non-standard tooling. This offer cannot be combined with any other special promotions.

EROWA®

This is an offer made *exclusively* to the members of AMBA. Details are below, and be sure to take advantage of this spectacular program!

To obtain your exclusive 5% AMBA member discount from EROWA follow these steps:

1. AMBA member must contact their current EROWA distributor (who they're currently buying EROWA from), establish what they need in EROWA products and negotiate their best deal from their distributor.
2. Before placing their order AMBA member must contact AMBA office to request a "Certificate of Participation." Member must contact AMBA at 847-222-9402 or mmillhuff@amba.org and ask Melissa Millhuff to issue a discount certificate.
3. AMBA member will give the certificate to their EROWA Distributor when they place the order with the Distributor.
4. There would be no limits on dollar amount or how many times in the year a member could get this discount. Note that a new certificate must be issued for each separate order.
5. Exclusions are for any automation product, software, special engineering, and special machining by EROWA.
6. This offer expires one-year from join date for new members.

Questions about this program? Contact Melissa Millhuff at AMBA, by phone at 847-222-9402 or by email at mmillhuff@amba.org.

EROWA Technology is a North American manufacturer of a complete line of products that improve machine shop productivity. Using standardization, organization, automation and integration as its cornerstone concepts, the use of EROWA workholding, in combination with its robotic systems and software, literally revolutionizes the profitability of businesses. Productivity increases up to 750% can be realized with complete implementation of EROWA technologies and processes.
